The Indestructible People – Protected
“The Blessing of Divine Providence”

Notes:

The Jewish people have been without an established homeland until May 14, 1948. That's the focus of this exciting story of the Bible – the Land. Consider the names of the land and who really owns it. Study the promises of the Bible to the Jewish people and how much land in the Middle East concerns them. What about the claims of the Arabs and land for peace efforts. You will not want to miss this Biblical study of the miracle land of the Middle East.
